

### Circular Solution: Reduced carbon footprint\*

To achieve your reduced carbon footprint goals, we focus on reducing the amount of material used as well as designing mono-material solutions which ultimately reduces the carbon impact throughout the entire product lifecycle.

\*Vs. previous generation of Berry product

## B 55 mm Flip Top 38/400

### Features

- Neck finish: 38/400; scalable to other standard industry neck finishes
- Orifice configurations:
  - Orifice: 7mm
  - Star-shaped orifice
  - Valve capable
- Compatible with silicone and TPE valves for no-spill, clean dispensing
- Liner capable

### Applications

- Sauces & Condiments
- Dressings
