Custom Films

Overview

Berry offers an extensive range of custom bags, sheeting, sheets, and tubing. There are eight custom film manufacturing facilities throughout the United States (see map for locations). Most Berry custom film facilities are ISO 9001:2008 and AIB certified.

Products are produced on mono-layer and co-extrusion blown extruders using a variety of LDPE, LLDPE, and specialty resins blends.

Additional features available:

- **Printing:** random in-line print (one color/one side, one color/two side, two color/one side)
- **Vents:** butterfly, clean cut, slit, pinholes

Custom film products are currently supported by a Vice President of Sales, four Regional Sales Directors, twenty-two Territory Sales Representatives, and multiple Strategic Account Managers, Technical Service Representatives, and Customer Care Specialists.

Applications

- Poly bags: drum liners, carton liners, mattress bags, furniture covers, textile bags, gaylord/combo liners, and pallet covers (gusseted or centerfold, shrink and non-shrink)
- Tubing (gusseted or flat): pipe wrap, compression sleeves, and parts covers
- Single wound sheeting: wrapping and compression films
- Sheets on roll or individually cut: top sheets, interleave, and slip sheets
- Shrink hooder and co-ex stretch hooders
- Form, fill, and seal: frozen food, seafood, and poultry
- Specialty products: boat shrink, mobile home auto inserter tubing

Markets

- Food
- Chemical
- Pharmaceutical
- General industrial applications
- Furniture
- Printing industries
- Construction and building
- Foam and bedding
