

Leading Supplier of Housewrap

The AIR-GARD® family of products delivers comfort with all-around protection, strength when needed, and ease of installation.

High quality and competitively priced

Proven wind-barrier performance for all climates with extraordinary strength-to-weight ratio.

A premium quality, tough, and effective housewrap that meets the requirements of ICC-ES AC38 as a Weather Resistant Barrier.

Performance & Protection

Barrier Performance

An efficient barrier to wind-driven rain with resistance to bulk water penetration reducing dampness and mold. Controlled air movement within the wall cavity and insulation between studs maintains R value.

Strength

Inherent strength in every direction reduces the risk of tears during application or from high winds.

Custom Printing

Multi-color printing of custom artwork in standard colors and quick turnaround.

Peace of Mind

AIR-GARD® products delivery quality material and workmanship that allow for ease of use during the installation process. Contact your AIR-GARD® Sales Representative for more information.
